Re: Notice of Ex Parte, Docket No. PS 06-229

Dear Ms. Dortch:

Pursuant to 47 C.F.R. § 1.1200, et seq., Harris Corporation (“Harris”) hereby notifies the Federal Communications Commission (“Commission”) of the following ex parte presentation in the above-referenced proceeding. On November 12, 2010, on behalf of Harris, JoAnne Dalton, Mary Doherty, Dr. Greg Henderson, Reid Johnson, Dr. Dennis Martinez, Evan Morris, and Dr. John Vaughn met in person and by phone with Pat Amodio, Yoon Chang, Behzad Ghaffari, Megan Koster, and Kurian Jacob of the Commission’s Public Safety and Homeland Security Bureau, Michael Ha of the Office of Engineering and Technology, and Ziad Sleem of the Wireless Telecommunications Bureau. During the meeting the parties discussed issues related to network governance and strategies for implementing a notional network architecture that would ensure seamless roaming and interoperability capabilities across the proposed 700 MHz broadband public safety broadband network. Included with this Ex Parte Notice is a copy the presentation provided at the meeting summarizing Harris’ recommendations and a list of responses to questions asked at an ex parte meeting that took place on October 15, 2010 (*Ex Parte Notice filed October 18, 2010*) concerning similar issues.

Respectfully,

/s/

JoAnne Dalton
